SUMMARY

Software Engineer specializing in **React.js**, **Next.js**, and **Node.js**, with a strong focus on building high-performance, scalable web applications. Proficient in **JavaScript** and **Tailwind CSS**, and experienced in developing reusable components, designing front-end architectures, and optimizing user interfaces for enhanced performance. Skilled in integrating **RESTful APIs** and collaborating effectively with cross-functional teams.

EXPERIENCE

AI Model Evaluator [Freelance]

Outlier AI
Remote

November 2024 – March 2025,

- **Generated training data** to enhance AI model learning across various domains.
- **Assessed AI outputs** for accuracy, relevance, and performance improvements.
- **Provided feedback and optimizations** to refine AI-generated responses.

PROJECTS

Next.js-Dashboard • December 2024 –December 2024

- built a dynamic, real-time dashboard using Next.js, TypeScript, and Tailwind CSS, optimized for fast performance and scalability.
- Integrated live data updates to provide real-time statistics, ensuring users can track metrics and trends as they happen
- Designed a user-friendly interface using Tailwind CSS, ensuring a seamless and visually appealing experience across devices.

TheAmazingEgypt • January 2025 –January 2025

- Developed a high-performance web page using React.js and improving scalability across devices.
- Showcased Egypt's cultural richness and breathtaking beauty through a captivating introduction, emphasizing key historical landmarks and attractions.
- Highlighted top destinations and diverse tourism experiences in Egypt for trip planning.

GoldXChange • February 2025 - February 2025

- Gold & Currency Exchange: real-time tracking and seamless transactions.
- Tech Stack: Built with Next.js, TypeScript, React Query, and NextAuth.js.
- Security: Protects API keys and credentials using environment variables.

BookStore • May 2025 - May 2025

- Built a full-stack Book Store application using MERN stack
- Designed a responsive UI with Tailwind CSS
- Developed a robust backend with RESTful APIs and CRUD operations.

Hidaya • June 2025 - June 2025

- Hidaya is a user-centric web platform created to raise awareness about the teachings and values of Islam.
- Features an elegant and responsive UI built with Tailwind CSS, showcasing Islamic habits and principles in a modern design.
- Developed using Next.js and TypeScript for enhanced performance, scalability, and developer experience

EDUCATION

Bachelor of Computer Science

University of Alexandria • Egypt • 3.3 CGPA

SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Figma

Backend: Node.js, MongoDB

Tools: Postman, Git
