

SERAJ ELDEEN

Junior FrontEnd Developer | Software Engineer

+01273616603 • serageldeens13@gmail.com • <https://bit.ly/linkedin-seraj-eldeen> • Alexandria, Egypt

Summary

Front-end Developer with expertise in React.js, JavaScript, and modern web technologies. Skilled in building clean, responsive design, and user-friendly websites and API integration to deliver exceptional user experiences. Currently expanding my skill set to become a full-stack developer, with a strong passion for taking on challenging projects that foster growth and innovation. Proficient in version control systems like Git. Looking to collaborate and contribute to exciting web development projects.

Experience

Scale AI | Outlier.ai

Remote

AI-Trainer [Freelance]

11/2024 - Present

- Evaluate and rank code generated by AI models.
- Solved 100% of tasks received effectively.
- Delivered before the deadline with a rating of 3.3/5.

Projects

The Wild Oasis

<https://the-wild-oasis-53ay-gdut1zl12-seraj-eldeen-abdullahs-projects.vercel.app>

- The Wild Oasis is a modern and responsive hotel booking application.
- designed to streamline the process of managing reservations and room availability.
- The project focuses on delivering a seamless and user-friendly interface by leveraging the latest technologies.

Gemini Clone

<https://gemini-clone-55xib0kih-seraj-eldeen-abdullahs-projects.vercel.app>

- Gemini Clone is an AI-powered web application inspired by Google's Generative AI capabilities.
- It allows users to interact with a generative AI model, providing real-time responses based on user input.
- The project showcases the integration of AI APIs with a modern frontend, delivering a seamless and interactive user experience.

Portfolio

<https://portfolio-pg3gg9tjw-seraj-eldeen-abdullahs-projects.vercel.app>

- This portfolio showcases the projects I've worked on and demonstrates my skills in building modern web applications.
- You'll find detailed descriptions of each project, the technologies I used, and the results achieved.
